CAREER OBJECTIVE

Enthusiastic Artificial Intelligence & Data Science student at CMRIT Bangalore, passionate about building and deploying full-stack AI applications using Python,Flask,WordPress and LLM APIs. Skilled at using AI-assisted development to turn ideas into working products. Looking for an opportunity to contribute to real business projects and help achieve the company's goals, while growing my expertise in web development, automation and AI-powered workflows.

EDUCATION QUALIFICATION

- **Bachelors of Engineering- Artificial Intelligence and Data Science**
  CMR Institute of Technology, Bengaluru
  8.02,2027(pursuing)
- **Pre-University Course- Science**
  Geetanjali Olympiad, Bengaluru
  71.2%, 2023
- **10th Grade**
  New Horizon Gurukul, Bengaluru
  76.6%, 2021

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, PHP (basic), Java (basic), C
Backend & APIs: Flask, FastAPI, REST APIs, third-party API integration
AI / LLM: Gemini API, LLM APIs, Ollama (local LLMs), prompt engineering, multi-turn conversation handling
Web: HTML5, CSS3, JavaScript, responsive design, WordPress plugin development
Databases: MySQL
Tools & Cloud: Git/GitHub, Docker, Vercel, Render, Linux (Ubuntu)
Data: Pandas, NumPy, Matplotlib
AI-Assisted Development: Claude, Google Antigravity (Gemini)
Automation & RAG: n8n workflows, webhooks, embeddings, vector databases

PROJECTS

- **AI Interview Analyzer — Automated Candidate Evaluation System**
  - Built and deployed an end-to-end full-stack web application that evaluates interview responses using LLM-based speech and sentiment analytics.
  - Designed a containerized microservice backend with Docker, FastAPI, and Uvicorn hosted on Render.
  - Integrated drowsiness detection alerts and an emergency assistance button to enhance road safety.
  - Tech Stack: **Python, Docker, FastAPI, Uvicorn, LLM APIs, HTML/CSS, JavaScript.**
  - Live Demo: interview-analyzer-vgit.onrender.com |
    GitHub:github.com/samvithak7-coder/interview-analyzer

- **AI Lead Assistant: WordPress Plugin with Flask and LLM Backend**
  - Built an AI chat assistant for business websites that answers visitor questions, remembers the conversation, and guides visitors to share their contact details for follow-up.
  - Developed a Python/Flask REST API integrating the Gemini LLM API, with a business-specific system prompt, multi-turn memory, automatic model fallback, request timeouts and per-IP rate limiting. Deployed serverless on Vercel.
  - Created a custom WordPress plugin in PHP that adds a floating chat widget to any WordPress site and connects to the API.
  - Published a public demo page and a one-click WordPress Playground demo (built with a Blueprint), so recruiters can try the project without installing anything.
  - Tech Stack: **Python, Flask, Gemini API, REST APIs, PHP, WordPress, JavaScript, HTML/CSS, Vercel, Git/GitHub**
  - Live Demo: ai-lead-assistant-backend.vercel.app
  - GitHub: github.com/samvithak7-coder/ai-lead-assistant-backend, github.com/samvithak7-coder/ai-lead-assistant-wp-plugin
- **AI Research & Report Generator**
  - Developed a serverless full-stack web application to automate query processing and multi-section technical report generation.
  - Implemented backend processing using Flask framework and the Google GenAI SDK integrated with secure environment-injected API keys.
  - Built a responsive dark-mode frontend interface featuring real-time pipeline status tracking and dynamic markdown rendering, deployed natively on Vercel.
  - Tech Stack:**Python, Flask, Google Gemini API, HTML, CSS, Vercel**
  - Live Demo: https://ai-research-agent-eta-weld.vercel.app/
  - GitHub: https://github.com/samvithak7-coder/ai-research-agent

---

INTERNSHIPS

- **Company Name:** CSIR – Fourth Paradigm Institute (CSIR-4PI)
  Duration: 3 months
  Role: Data Processing & Research
  Responsibilities:
  - Developed optimized data pipelines for large-scale structured datasets.
  - Conducted preprocessing and exploratory analysis to improve research data usability.
  - Supported workflow automation and debugging for enhanced data efficiency.

CO-CURRICULAR ACTIVITIES & EXTRA-CURRICULAR ACTIVITIES

- **Online courses and certifications:**
  - Certified on topic “Python for Beginners” from Udemy
  - Certified on topic “C for Beginners” from Udemy
  - Certified on topic “Data Science with Python” from NPTEL
  - Certified on Topic “Introduction to Generative AI” from Google.
  - Certified on Topic “Web Development” from Infosys Springboard.
  - Certified on Topic “Agile and Scrum” from Infosys Springboard.
- **Seminars/Conference/Workshops:**
  - Participated in Idea thinking workshop of AI and DS department
  - Participated in Internal Smart India Hackathon 2025

- **Non-Technical Club Activities:**
  - Google Student Ambassador (Gemini AI Movement) for promoting Gemini AI tools and conducting google hackathon.
  - Support Team member Rotaract Club, CMRIT

ACHIEVEMENTS

- Secured 3rd Prize in the Mini Project Exhibition for Vigil Netra – Automotive Black Box for Vehicles during the 4th Semester.
- Research paper on *Vigil Netra – Automotive Black Box for Vehicles* submitted to IEEE (under review).

PERSONAL DETAILS

DOB	: 25-12-2004
Gender	: Female
Nationality	: Indian
Languages Known	: English, Kannada, Telugu, Hindi
Hobbies	: Listening to music, Reading books, Badminton, Painting
